Large and mid-size employers must provide reporting in early 2016 about the health coverage they offered to employees during 2015. In addition, sponsors of self-funded plans of all sizes must report on coverage. The IRS has now released the reporting forms – employers will need detailed data to complete the forms and should be working now to make sure that they will be able to access the data when they need it.

Join us for this intermediate level, 90-minute webinar to learn which IRS forms (1094 or 1095) will be used in which situations, what information must be reported, how codes will be used to report details and how the transition rules will affect the 2015 filings.
